**SECTION I**  
**GENERAL NOTES**

- 1 Notices to Mariners are issued fortnightly on a Friday. A summary of temporary notices and a chart correction record (issued every six months) are published in Issue No 13 and 26 of Notices to Mariners.
- 2 Positions on Hong Kong Charts are referred to the World Geodetic System 1984 (WGS 84) Datum.
- 3 Depths are measured in metres and are reduced to Chart Datum, which is approximately the Lowest Astronomical Tide (LAT).
- 4 Heights and spot heights are measured in metres above the High Water Mark (HWM).
- 5 Navigational marks are based on the IALA Maritime Buoyage System (Region A) – ie Red to Port, Green to Starboard.
- 6 Continuous Differential Global Positioning System (DGPS) correction signals for WGS 84 positions are broadcast by the Hydrographic Office on 289.0 kHz and can be received by any vessel with a standard DGPS receiver. For technical details of the system, please refer to the following webpage:
